

## Notable Press Releases

As a part of our passion for equal-access healthcare, Medbelle is active in compiling research about the status of healthcare around the globe.

Findings are released on a rolling basis and sent to members of the press immediately. If you would like to be added to this mailing list, please contact [press@medbelle.com](mailto:press@medbelle.com).

## Ranking the Best Hospital Cities in the UK

Access to good-quality healthcare is a key driving factor for Medbelle. This report summarises our findings comparing the standings of countries and major cities across the world in terms of their medical infrastructure, accessibility, and medical education.

Measuring accessibility takes into account the overall quality of a city's healthcare infrastructure instead of focusing on one stellar hospital.

This reporting has been extremely useful to journalists when contextualising the impact of coronavirus and COVID-19 on healthcare systems globally, as seen in this [Reuters article](#).

## 2019 Medicine Price Index

This report summarises our findings comparing the standings of countries and major cities across the world in terms of their medical infrastructure, accessibility, and medical education. Focusing on accessibility as an aspect of quality takes into account the overall quality of a city's healthcare infrastructure instead of focusing on one stellar hospital.

## UK Earnings & Savings from Hiring EU Medical Professionals

Aug. 2019 - As the UK prepares for Brexit, the medical industry is preparing for the changes ahead. EU nationals working in healthcare in the UK are a vastly important and sometimes overlooked resource when considering the state of medical care in the UK. This report takes a closer look at the potential ramifications of Brexit on healthcare if these tens of thousands of workers are deported.
